

Nirvana: National-Level Management Fest - A New Opportunity for Commerce Institutions!

This year, Nirvana is breaking new ground by opening its doors to students from top commerce institutions for the very first time! Traditionally focused on management disciplines, we're thrilled to extend a special invitation to students pursuing esteemed professional courses such as CA, CMA, CFA, CPA, CFO, and CFP. Only students from these specified courses are eligible to participate in this event, creating a unique platform tailored to their professional journey.

Join us at Nirvana 2024, a National-Level Management Fest where colleges and commerce institutions come together to compete, learn, and showcase their talent. This is your chance to experience thrilling competitions, gain national recognition, and network with fellow future leaders.

To ensure a fair and memorable experience, please adhere to the following rules and guidelines for participation:

Participation Rules and Guidelines

1. Proof of Qualification:

Each participant must present a 10+2 (HSC) certificate for verification. A soft copy or digital format is acceptable if the original is unavailable.

2. Authorization from Institution:

A letter of permission from your institution confirming your enrollment and permission to participate in this fest is required for entry. This letter must include your year of admission and the duration of your course, and it should be provided on the institution's official letterhead.

3. Eligibility for Overall Championship:

For institutions with multiple branches, each branch will be regarded as a separate entity. Points earned by participants will count only toward that branch's score in the race for the Overall Championship Prize.

4. Participation Structure:

In the case of multiple participants, teams will be briefed on the competition guidelines. However, each branch will be treated as a distinct participant if multiple branches from the same institution are involved, giving each branch its unique chance to shine. If there are multiple participants from an institution, we offer discounts on registration. However, for institutions with different branches, each branch will be considered a separate entity for discount eligibility and registration purposes. Pre-registered groups from each branch can avail of these discounts individually.

This is a new opportunity to represent your course and institution at a national level, where you'll experience high-energy challenges and unforgettable moments. Don't miss this first-ever chance to be part of Nirvana's legacy!
